George Tubies
P.O. Box 204
Hanover, Pennsylvania 17331

Dear Mr. Tubies:

A recent field investigation by a representative of this office has disclosed that unauthorized dredged and fill materials have been discharged into jurisdictional wetlands adjacent to a tributary to White Run at your property located off U.S. Route 30 and Granite Station Road in Straban Township, Adams County, PA. The referenced discharges are in association with the construction of an access road.

Records in this office indicate that neither a Department of the Army permit nor a letter of permission authorizing this work was issued by this office. The placement of fill material in waters of the United States or in adjacent wetlands without prior approval of plans by the Department constitutes a violation of Section 404 of the Clean Water Act.

No further work is to be performed at this or any other location in a waterway or in wetlands without compliance with the law. Violations of Section 404 are subject to prosecution by the Attorney General of the United States.

If you have any questions concerning this matter, you may call Mr. Frank Plewa of this office at (717) 249-2522.

Sincerely,

Linda A. Morrison
Chief, Regulatory Branch
